

Can you create a project about a country of your choice?

Can you explain in a few sentences why you have chosen that country?

Things you might include in your project:

A collage or drawing of the typical **weather** in the country.

Traditional clothes
worn in the country.

the **flag**
of the country.

Interesting facts
you have learnt about the country.

Any words you know written in the **language** for the country.

Information or a fact-file about a **famous person** from that country.

traditional food
(either photos if you eat or cook the food that you've made or drawings of what you might eat there).

Any famous **festivals** or **landmarks**.

Please be as creative as you like as these are just ideas. You can include any information about the country you've chosen and use a variety of drawings, writing, collages, photos or any other ways you can think of to display the information in your book. You could even create your own video about everything you've learnt.
