

## Year 6 Home Learning week beginning 23/03/2020

Please see below the tasks we would like your child to work on this week. If you have any problems, please remember that you can email me on [scodling@wtwschool.co.uk](mailto:scodling@wtwschool.co.uk) during school hours.

Please note that any links to internet sites and YouTube videos need to be supervised by an adult, and they may contain adverts. You do not need to pay for any of the sites we are suggesting.

If you need any additional pencils, paper or other stationery, please contact the school and we can arrange that for you to collect.

### Things to keep you busy

**Newsround:** Make sure you stay up to date with what's going on through Newsround; they have good advice and support, plus their content is going to be relevant to all you guys who are stuck at home or still at school.

**Word of the Day:** Why not download the Vocabulary Ninja's 'Word of the Day' app and email me your sentences? I'll keep on Tweeting your great work!

**Headspace:** It's super important that you guys look after yourselves mentally during these tricky times. The headspace YouTube channel has lots of good meditations if you fancy calming your brain down:

**What Went Well:** Also, you could carry on 'What Went Well' each day in a diary. Try to find 3 things that you have enjoyed from each day, no matter how simple. This will help you to maintain a positive mind set.

**Brain Goals:** Set yourself a target of something new you want to learn whilst you have this time. It could be to count to ten in a new language, play something on the guitar/piano, keep up with toilet paper or even improve the amount of press-ups you can do. Whatever it is, make it fun; bonus points for whoever has the most original idea. Keep me updated and share your experiences via email.

**PenPal Schools:** PenPal Schools is offering free access to students during the Covid-19 pandemic. This is a really interesting way of connecting and learning with children around

the world. Have a look, it's free! You must get permission from your parent before you sign up and you must show your parents what you are doing at all times.

**Computing:** Hour of Code:

Why not try some coding in between the tasks above?
