

# Day 4: What do you remember?

Last week...

What would you like to  
eat for dinner? Is dinner  
the past, present or  
future?

Yesterday...

What is wrong with this  
tally?

L:O I can record a tally  
chart.

# Today you are going to work with a grown up to make a tally chart.

Kitchen object	Number of objects
	
	
	
	

If the number of objects in your house is too big for your child to count to, then bring a selection to the table.

# Can you answer these questions?

What did you  
find the most  
of?

What did you  
find the least  
of?

How many things  
from the kitchen  
did you count  
altogether?

# Chris has tried to do one at his house.. can you spot the mistakes?

Kitchen object	Number of objects
	
	<del>  </del>
	

He found 6 mugs, 3 glasses, 4 cups and 4 bowls. Can you write a tally chart for him without his mistakes?

## Challenge

Can you send one of your tally charts  
to your teacher and explain the  
information you have found out?
