

Year 3 Autumn Newsletter

Dear Parents and Carers,

Welcome back! The children have had a great time settling in to year 3 and we are all looking forward to the year ahead. Please see below an outline of what is happening this term.

Topic

Our topic for this term is **London and the UK**. This is a really interesting history and geography based topic which covers identifying different locations, discussing similarities and differences, and exploring how London has changed over time.

Science

This term we will be learning about forces and magnets. Children will be comparing how things move on different surfaces, describe magnets as having two poles and observe how magnets repel and attract each other as well as attract some materials but not others. They will make hypothesis, use investigation skills and draw conclusions.

Reading

Children will be bringing reading books home and can return them as and when they have finished.

P.E

P.E. is with Billy every **Wednesday and Thursday**. Please make sure children are wearing their P.E. kits to avoid changing in the classroom and suitable footwear on these days.

If you need to contact us regarding your child's education or wellbeing, please email Catherine and Sam at cthompson@wtwschool.co.uk and shyde@wtwschool.co.uk (please email both of us). Any urgent messages that need to be dealt with on the same day, must be telephoned through to the school office as we may not access our emails during the school day.

We're looking forward to a great year ahead.

Catherine, Sam and Kath.
